To Whom It May Concern:

Re: Bill Smith Electric  
PO Box 1057  
Gonzalez, FL 32560

We are currently working with Bill Smith Electric on two projects in Franklin Tennessee. These involve renovations in and around existing elementary schools while they are in session. This requires a lot of coordination and extreme care not to disrupt the students or teachers during the school day.

Bill Smith Electric was awarded this project based on their knowledge of the project as well as being competitive.

We at Doster Construction do recommend Bill Smith Electric for any project they pursue and look forward to working with them again in the future.

If you have any question please feel free to contact us.

Yours truly,

Doster Construction Co Inc.

Donald M. Beal
