Re: Mr. Jake Smith
Bill Smith Electric
P.O. Box 7622
Pensacola, Florida 32534

To Whom It May Concern,

Bill Smith Electric was first introduced to us on a new 12,868 SF Church in Theodore Alabama where they performed the electrical work. They provided a very competent foreman/superintendent on the project who performed very well, paying close attention to the plans and specifications while keeping a great attitude and workability that we find only in the best of subcontractors. Jake Smith took a personal interest in the project and was in full support of their field staff which always kept the project's best interest in mind. Bill Smith Electric was on time, handled cost and change orders professionally and met the quality expectations on the project.

I would highly recommend Bill Smith Electric for projects that need a quality electrician on a meetinghouse or similar type/size project.

Their attitude and abilities as an Electrical Subcontractor would not have me hesitate in using them again on a project.

Sincerely,
OKLAND CONSTRUCTION COMPANY, INC.

Tyler Wilson
Director of Special Projects
